

RoHS
Compliant

IMPORTANT SAFETY PRECAUTIONS

Before you begin, read these instructions completely and carefully.

- Be certain electrical power is OFF before and during installation, maintenance and removal.
- Luminaire wiring must be properly grounded in accordance with the NEC and any applicable local code requirements.
- Use only UL or IEC approved wire for input/output connections.
- Verify that supply voltage matches voltage on luminaire label. Installation to any other connection may void the warranty.
- Wear gloves during installation to prevent injury and do not expose wiring to metal or sharp edges.
- Do not install in areas subject to combustible vapors or gases. Verify luminaire location ratings are suitable for installation environment (refer to specification sheet as needed).
- Do not restrict luminaire's ventilation by covering with material that will cause luminaire to overheat and potentially shorten the life span.
- Ensure LED luminaire has the correct polarity before installation.

WARNING: To reduce the risk of personal injury or property damage from fire, electrical shock, falling parts, abrasions, burns and all other hazards, read all provided warnings and follow installation instructions.

This product should be installed, inspected and maintained by a qualified and licensed electrician. Installation of luminaire must be in accordance with NEC and local code requirements.

SAVE THESE INSTRUCTIONS

INSTALLATION INSTRUCTIONS (JUNCTION BOX MOUNTING)

1) Loosen the screws and remove the LED component from the base.

2) Remove the 1/2" sealing plug base, support the standard 3 1/4" and 4" junction box.

3) Drill 4 holes (Location as 'A' in the figure) on the base, pull the main power cord through the 1/2" hole, use screws to fix the base on the wall.

4) Finish wiring (L for line, N for Neutral, ⊕ for Ground).

Wire Connection

5) Connect the two connectors, then secure the front cover to the base with screws.

INSTALLATION INSTRUCTIONS (CONDUIT MOUNTING)

1) Loosen the screw, remove the LED component from base.

2) Open the base installation kits then use screws to fix the base to the wall. Open the sealing plug.

3) Plug the conduit into the sealing plug position.

4) Finish wiring (L for line, N for Neutral, ⊕ for Ground).

5) Connect the two connectors and secure the front cover to the base with screws.
