SLLO-LV STEP LIGHT LOUVER

LOW VOLTAGE LED

SLLO-LV is a sleek, high-performance low voltage step light with louver shielding, designed to provide safe and efficient illumination for outdoor spaces. Crafted from durable aluminum and available in three finishes—oil-rubbed bronze, black, and white—it ensures a blend of style and durability in a variety of environments. This 5W light features selectable color temperatures of 3000K, 4000K, and 5000K, offering flexibility to match your desired ambiance. With a 120° beam angle and luminous output of 75 or 150 lumens, depending on the finish, the SLLO-LV series is ETL listed for safety and reliability. Its high-quality aluminum construction and adjustable installation options make it a versatile solution for any landscape lighting project.

PHYSICAL

Material	Aluminum
Mounting	Recessed Wall (installs in standard single gang junction boxes or low voltage boxes)
